

Watermain Replacement – Advance Notice

Arvida Circle, Pamplona Mews, Alfresco Terrace, Sundown Circle, Spring Creek Crescent, Millers Grove from Battleford Road to Tenth Line West City of Mississauga, Ward 9

The Region of Peel anticipates replacing the watermains in your area within the next two years. Because of this, you may wish to delay any major landscaping or driveway works you may have planned until after our work has been completed.

In the meantime, you may notice the following activities in your neighbourhood:

1. We will mark the location of gas, hydro, cable, etc. on roads, driveways and lawns.
2. We may drill boreholes to determine ground conditions.
3. We may survey your street.
4. Before construction, we will take pictures to help us make sure we restore the area to its former condition.

Co-ordination with other works

As we co-ordinate works with the City of Mississauga, our work *may* be followed by road construction, curb replacement and/or resurfacing. In this case, our restoration may only be temporary. When the City has finished the roadworks, they will complete a comprehensive restoration.

Keeping you informed

We are currently in the early planning stages, so we can't give you exact dates when we will do the work. In addition, as the future planning activities of the City may change, we may alter our plans to replace watermains in your neighbourhood.

For general and updated information, please visit www.peelregion.ca/pw/construction/

We will deliver more detailed information to your home closer to the proposed construction date.
