Dear Resident and/or Property Owner:

Re: Condition survey for properties within the West Trunk Sewer project along Erin Mills Parkway

The Region of Peel is installing a large sanitary sewer pipe along Lincoln Green Way, Lincoln Green Close, Erin Mills Parkway, Argonia, and Creditview Road.

Frontop Engineering Ltd. (Frontop) has been hired to conduct a survey of homes and buildings in the vicinity of the construction area to check for existing conditions. Your property is located in this area. This survey protects you, the Region of Peel and the contractor working on behalf of the Region in the unlikely event of a claim due to construction. This survey is common practice on most construction projects.

We hope the information on the back of this sheet will answer any questions you have about the survey. Please call me at 905-791-7800, ext. 5073 or email me at ajay.puri@peelregion.ca if you have other concerns, or if you do not wish your property to be surveyed.

How to arrange a survey:

- Please phone Frontop as soon as possible at 1-905-947-0900, ext. 272 to make an appointment for the survey. This is a 24-hour voice message centre.
- If you prefer, you may email them at d.gazanfarpor@frontop.ca
- Please refer to file **MT13-03-16A** with your name, address, telephone number and when (date and approximate time) you would like Frontop to come to your home or business. A Frontop representative will reply to your call or email.

Thank you for your co-operation.

Sincerely,

Ajay Puri
Project Manager
Wastewater Division
905-791-7800, ext. 5073

Pre-existing Condition Surveys: Your Questions Answered

What is a pre-existing condition survey?

- The survey includes an interior/exterior inspection of buildings and structures that have been determined to be close to the construction activities.
- The inspector looks for pre-existing conditions such as nail pops, cracks etc. The inspector will take a reference photo of each room, as well as photographing any pre-existing conditions found.
- No items will be moved or disturbed, and only accessible areas will be inspected.
- Please tell the inspector if there are any parts of your home you do not want surveyed. If you wish, we will only check the exterior of your property; however, a survey of the inside and outside gives more complete results.
- No personal/private information is collected. Photos are taken only of the walls, ceiling and foundation.
- **There is no cost to you for this service.**
- **All inspectors carry photo identification. Please ask to see their ID.**

What if I have a specific concern?

- Tell the inspector at the time of the inspection about any specific concerns, such as a pool, hot tub, in-ground sprinkler system, septic tank, or a drilled or dug well.

How long will the inspection take?

- It will take about one hour, depending on the size of the home/building.

What happens to the photos?

- Frontop keeps the photos in their secure facility for seven years after the project is completed. The photos are then destroyed.
- If you want the photos destroyed before this time, Frontop will ask you to sign a release form stating you will not make a claim in the future.

Why should I have a condition survey?

- The survey protects you, the Region and the contractor. You do not have to have your property inspected, but we highly recommend it.
- The survey allows for a smooth claim process in the unlikely event your property is damaged as a result of the construction activities. **Please be assured that we do not anticipate any damage to your property as a result of our construction work.** This survey is common practice on most construction projects.
- If you do not wish your property to be surveyed, please let us know.
